C.Z.M Gosrani BCA Collage | B.C.A in Computer | 58/100   **July 2016 – May 2019**

Coursework: Object-Oriented Design and Programming, Web Programming, Software Engineering, Knowledge Discovery, Data Structures, and Computer Networks

WORK EXPERIENCE

EzyBzy (Pune, India)   **Dec 2020 – Mar 2021**

Android Devloper

- Built an Android application 'Chickeera' for Food ordering and delivery App
- Track Live Location of Delivery Boy
- Different payment methods, including COD and online payment using Paypal
- Check order history and cancel order
- Add items to your cart.

Gad Infotech (Ahmedabad, India)   **Aug 2019 - Nov 2019**

Android Devloper

- Build an Android application 'Counter' for Dhikr or Easy Counter
- you can save your dhikrs and easily resume on your pre-saved dhikrs.
- Dhikrs saved as Dhikr Name and Dhikr Count with chronological order.
- Even if the Dhikr counter is closed and reopened, the dhikr counter remains constant at the last released value.

TECHNICAL SKILLS

- **Middleware Packages:** JBoss/JBoss EAP, Tomcat, Apache, WebLogic
- **Programming languages: Java**/J2EE, C, C++, Android, Python, HTML, CSS, JavaScript, SQL, MySQL
- **Databases:** MySQL, Firebase Real Time Database, SQLite
- **Tools & Technologies:** Atlassian Jira, Android Studio, Eclipse, JSP,Hibernate, REST, Distributed Systems, Object Oriented development, Linux, Web Services, Relational database systems

- **Version Control (CI/CD Tools):** GIT, GitHub

PROJECTS

Online Logistics Management System
Developed vehicle booking website for transportation of goods using J2ee With jsp and servlet, HTML, CSS, JavaScript and MSSQL.
- Added functionality to upload goods details for client and bids for transporter.
- Based on the transporters bid, client can select them to transport their goods.

Budget Manager(ANDROID)
- Budget managers makes managing personal finances as easy as pie! Now easily record your personal and business financial transactions. Using Android- java,sqllite
