PROJECTS

- **PAPER VENDING MACHINE**

In the field of automatic vending of the materials, many types of machines available in which automatic paper vending is proposed to solve the issue of vending the

papers at stationery store in many of the educational institutes. It is the machine that will have pre loaded paper sheets and provide the sheets according to the input given by the user and it will also verify the user by scanning barcodes and update the database accordingly. Hence make the vending process faster and accurate.
