## EDUCATION

- **CCNA (Cisco Certified Network Associate)**  
(By TCS ION A unit of TATA Consultancy Services Ahmedabad, 2018)
- **Bachelor of Arts**  
(By S.P.M Arts College Maharashtra, 2012)
- **Diploma in Computer Hardware and Networking**  
(By ITI College Shirpura Maharashtra, 2010)
- **Board of Senior Secondary Education**  
(By S.P.M Arts College Maharashtra, 2009)
- **Board of Secondary Education**  
(By P.B.M Higher Maharashtra, 2007)

## RELEVANT SKILLS

- Server rack dressing
- infrastructure
- Customer Requirements
- Engineering Support
- Network Security
- Windows
- Symantec
- Routers
- Cloud
- NAS

## CAREER OBJECTIVE

Engaging people with 8 + Years of experience in System and Network designing, installation and troubleshooting. Works under guided individual instructions. Seeking to bring fast, intelligent solutions to IT field and promote globalization as demanded

## PROFESSIONAL SKILL

- Experience in installation and Administration of LAN, WAN, MAN, Windows OS, Windows Server, Linux Server, Ubuntu, Firewall, NAS Data store, Cisco Switches/ Router and Microsoft office applications.
- Proficient in analysing information system need, evaluating end-user requirements, custom designing solution, troubleshooting for complex information systems management.
- Expert in modern concepts of end-to-end program planning and implementation from scope management, to activity sequencing, effort & cost estimation, risk analysis to quality management in adherence to quality guidelines and norms.
- Specialized in maintaining servers and clients as well as resolving all service-related problems.
- Server rack cable management and maintenance management UTP cable connector crimping and punching machine
- Cloud computing configure and management (AWS.AZURE, IBM, Google)

## PROFESSIONAL EXPERIENCE

**December 2020–Present**

**IT MANGER**

**MAYUR WOVENS PVT LTD**

- Lead large IT projects, including the design and deployment of new IT systems and services
- Help define IT infrastructure strategy, architecture, and processes
- Maintain essential IT operations, including operating systems, security tools, applications, servers, email systems, laptops, desktops, software, and hardware
- Experience with or knowledge of programming languages and operating systems (MS Exchange, Active Directory, and other Windows-based systems), current equipment and technologies, enterprise backup and recovery procedures, and system performance monitoring
- Troubleshoot hardware and software issues related to internal IT
- Installing, maintaining Network Attached Storage (Sinology, Qena, Net gear)
- IN depth knowledge of Linux: RedHat, CentOS, Debian, etc.
- Solid knowledge of protocols such as DNS, HTTP, LDAP, SMTP and SNMP
- Upgrades to (MACBOOK, IPD) installs and troubleshoots networks, networking hardware devices and software.
- Installed, relocated, and upgraded the onsite Cisco switches, and routers

- **Hardwar**
- **Switches**
- **Access Points**
- **Servers**
- **IP Addresses**
- **Routers and Firewalls**
- **Linux server installation and configuration**
- **Server, computer and Laptop hardware manager**
- **Routers and switches configuration**
- **Networking device meaning**
- **Mac device manager**
- **Cloud computing architecture**
- **Software installs and support**

- *Set up, configure and network new PCs, laptops and printers. Install and configure operating systems, software applications, and upgrades using automated install procedures*
- *Hands-on knowledge and experience with Microsoft Windows Server installation, administration, support, tuning and troubleshooting*
- *Experience with Active Directory configuration management and administration*

***May 2018–December 2020***

**Systems Administrator / Network Engineer**

***Kalp Systems, Ahmedabad***

- *Install and configure network hardware and software systems.*
- *Advance Knowledge of (Microsoft Office 2003,2007,2010,2013,2016,2019 and office 365 Application Windows 2007/XP/8/10) environments*
- *Upgrades to (Window 7, windows 8,10 ,2003,2008,2012,2016,2019) installs and troubleshoots networks, networking hardware devices and software*
- *Strong working knowledge of either Active Directory and/or Microsoft Exchange & o365*
- *To support daily technical support activities for desktop, data, and server management*
- *Hands-on experience with Windows/Linux/Mac OS environments*
- *Knowledge of network security practices and anti-virus programs*
- *Enabled routing on routers, OSPF, RIP, EIGRP, BGP, apply ACL, PPP, wireless VPN*
- *Served as the Microsoft Windows desktop operating system resource person to quickly address complex user issues.*
- *Evaluate network-based vendor submissions for compliance with customer's specifications on technical solutions*
- *Assembling and disassembling the computer, Cabling*
- *Firewall hardware and software configuration in network secure*

***November2015–May 2018***

***Desktop support***

***shri Swaminarayan computing services Pvt ltd***

- *Maintain and administer of UNIX/Windows critical hosting environment with focus on services delivered to Intel laboratories*
- *Maintained all network documentation for hardware configuration and licensing*
- *Configured and installed routers switches and wireless controllers.*
- *Knowledge of networking essentials like TCP / IP, DHCP, DNS etc.*
- *Installing, configuring and maintain servers and networks;*
- *Overseeing system performance and troubleshooting issues;*
- *Monitoring and maintaining network servers such as file servers, VPN gateways and intrusion detection systems; and*
- *Managing Windows, Linux, or Mac systems*
- *Creating a backup and safeguarding the data if there are any hindrances;*
- *Monitoring system performance and responding to various system alerts and provides initial problem diagnosis and/or resolution on a 24/7 basis*
- *Server rack cable management and maintenance management UTP cable connector crimping and punching machine*
- *Microsoft outlook configuration installation maintenance*

- *vm workstation hyper v install configuration manager*
- *Provides software and hardware technical support to users as needed.*
- *Experience with integration-type projects such as domain migration.*
- *Install and configure LAN and WAN devices (switches, routers, enterprise server*
- *Install Ethernet and fibre optic cables as directed by documentation provided by Network Engineering*
- *Ability to use hand tools (such as RJ-11, RJ-45, pin crimpers, wire strippers, pin extractors, and punch down tools, etc.) and use power tools and electronic test equipment*
- *Firmware/OS/Configuration updates to devices*

***February 2012–oct 2015***

***Field Service Engineer***

***Compuscan System Pvt ltd***

- *Assembling and Disassembling the computer, Cabling*
- *Trouble shooting desktops, laptops and servers*
- *Experience Installing and configuring peripheral parts, components and drivers*
- *Software / Hardware Installation, Troubleshooting, of all kinds of Assembled and Branded Computer systems.*
- *Installed Hard Disk, CD Drives, Sound Blaster Cards CPU, Memory, Power Supply Unit, Networking Card, Video Graphics Card, Hard Disk Controller Card On PC System*
- *Installing configuring administrating software application.*
- *Managing and maintaining the server, pc's, Routers and Switches.*
- *Operating Systems: Windows XP/Vista/7/8, Linux, Red Hot 7*
- *Installing and Configuring Windows Server 2000/2003/2008/r2 Active Directory FTP, DNS, DHCP, TFTP, Linux OS under various LAN and WAN environments..*
- *Routing & configuring the Network & LAN cables*
- *Network sharing drive and file and folder configure*
- *data storage NAS device installed configuration management device*
- *Connecting the printers with the desktops & laptops.*
- *Managing and maintaining the server, pc's, Routers and Switches.*
- *Configuring, managing and maintaining networking equipment's.*
- *Server rack cable management and maintenance management*
- *Firewall hardware and software configuration in network security*
- *UTP cable cat 5/cat 6 connector crimping and punching machine*
- *Cctv camera analogy and Ip cameras and access control video door phone instalment configure*
