## WORK HISTORY

December 2019 - Current

**Ecommerce Websites QA Tester, Seventh Triangle Consulting**, New Delhi, India

- Wrote and executed effective functional tests and carried out exploratory testing to assess product performance.
- Supported, implemented and helped shape test approach by identifying solutions to recurring issues.
- Read, interpreted and followed written test instructions and procedures to accurately test products.
- Coordinated with systems partners to finalize designs and confirm requirements.
- Planned and estimated test activities to determine effort needed to validate quality of product under test.
- Proposed technical feasibility solutions for new system designs and suggested options for performance improvement of technical components.
