Projects:

➤ **Application for Alzheimer's diseases patient and Caregivers**

BE : Using python and anaconda programming language we developed an application for Alzheimer's diseases patients and Caregivers.

➤ **Development of Website for renewal of license registration.**

TE : We developed a website for renewal of license registration which renewed license registration

Strengths:

- I have always preferred to work in groups and find that my collaborative nature is one of my strongest attributes
- I am a solutions-oriented person and a quick learner.

Weaknesses:

- My weakness is that I criticize myself. Whenever I complete any task, I feel like I could have done more, even if my work received a positive response. Which leads me to overwork myself.
- Extroverts are often described as talkative, so being too detail-oriented has become my weakness.
