Certifications and Licenses

CCNA R&S

April 2021 to Present

It was basically about routing, switching and wireless essentials, where I have learnt not only to configure numerous devices in different network but also to compose complicated networks with more user friendly interface.

AWS Certification

March 2022 to Present

Deployment of system on cloud along with required policies to securely operate resources.

Projects / Papers Presented

Smart agriculture using IOT

May 2022

This was my final year project, where I utilised nodemcu alongside some sensors were used to detect the reading, therefore it showed accurate automation outcomes on multiple gadgets like smartphones and website at the same time to operate further.

Cloud Automation

January 2023

Deployed VPCs wherein multiple system built with RDS and data had triggered via lambda function within AWS environment.
