ReactJs JavaScript HTML CSS

TailwindCSS PHP MYSql

Illustrator CorelDrew Team Player

GIt

PERSONAL PROJECTS

Online Movie Ticket Booking Project
(12/2022 - 04/2023)
- This project entails the development of an online movie ticket booking application featuring login and registration functionalities. Users will have the ability to book tickets for various shows, with the option to reserve seats up to 7 days in advance of the current date. The backend will be powered by PHP and MySQL, ensuring seamless administration and management for the system.

Online Admission System
(06/2022 - 10/2023)
- Implemented a student registration and admission form system where students can register and fill out the form only once. The approval or rejection of admission is exclusively handled by the admin. Upon logging in, students can view the status of their admission form in their dashboard.
