**Project Name: GappedRacing**

### Tools & Technology:

- Xcode11.1
- Swift
- Facebook SDK
- Firebase
- Google Map
- Fabric

### Description:

- A mobile app created for all racing enthusiasts - Main focus will be to create a virtual starting and finish line for all users along with offering live test and tune. The application will serve as a virtual leader board list for their perspective cities along with offering an in

house private group thread completely secure only for exclusive Gapped members. Users will have the capability to search nearby users, create callouts, challenge other members and have the ability to sync to multiple users while all recording their performance in real time. No more designating someone who will have to honk or have to rely on those hard to hear countdowns. The app will eliminate debates if someone jumped first or as to who crossed the finish line by reaching the desired distance or speed.

**Project Name:** IKnowa

**Tools & Technology:**

- Xcode9.0 to 12.1 (Development Tool along with the SDK components)
- Swift
- Facebook SDK
- Firebase
- Apple with login

**Description:**

- The Mission Is Simple: To make it easy for connection-seekers, to plan and experience real-world dates, share special moments, and create invaluable memories with like-minded others, offline.
- We know how important true connection is for humans – so why aren't we serving up our venues as the perfect spaces to fan the flames of these sparks in the real world? This is where iKnowa comes in. We've reimagined dating culture and wrapped it in a tidy package to make dating life simpler.
- Your Date. Our Place.
- iKnowa links Australia's dating scene to our Places; be it a restaurant, cafe, or bar to your favourite speciality treats. They highlight their menu, atmosphere, and dress code along with promoting their unique offers and Perfect Dates.
- Don't wait for life's moments to come to you. Start creating them with the iKnowa app. iKnowa is one app for People and Places alike.

**Project Name:** PDF: Split, Merge & More

**Tools & Technology:**

- Xcode 14.2
- SwiftUI
- In-App Purchase
- Firebase Events

**Description:**

PDF Merge and Split is a professional application for those who want to merge their different PDFs into a single one or want to split a single PDF into different parts.

Detailed Features:

- Split a long detailed PDF into single-page PDFs without much effort. Make your selection for splitting the PDF and get it done instantly with our PDF editor app.
- Our PDF merger helps design a single-page PDF from different PDFs. Leave the hassle of storing different PDFs of your projects by merging them into a single file.
- While merging or splitting the PDFs, the user can delete unwanted pages. It helps remove the extra or additional content from the PDF.
- Is your PDF locked? Well, our PDF editor helps with an exclusive unlock PDF feature to split or merge PDFs.
- Add a watermark on any page or part of the PDF with our PDF editor application. Give a customized appearance to your PDFs by adding an important watermark.
- Either you merge or split the PDFs, our Split Merger PDF app helps compress the size of your PDF to a minimum.
- Convert images to PDF files using our PDF editor app.
- Convert the PDF file to standard text using our PDF editor app. Mark the selection and convert the files in a breeze.
