## EDUCATION

### Bachelor's in Computer Application LJ Institute of Computer Applications

05/2021 - 04/2024

Ahmedabad, India

## PERSONAL PROJECTS

### Realtime TicTacToe - ReactJS | NodeJS | Express | Js | SocketIO (02/2024 - 02/2024)

- This responsive project uses Socket.IO in order to achieve realtime communication between the server and the other clients.
- Project Link : <https://github.com/FahzainAhmad/tictactoe-realtime-nodejs-express-reactjs-socketio>.

### NewsDash - ReactJS | Fetch API (07/2023 - 08/2023)

- As a passionate developer, I created News Dash, a news app using ReactJS. I harnessed the power of NewsAPI and FetchAPI to deliver real-time news.
- Project Link : <https://github.com/FahzainAhmad/reactjs-newsdash-newsapp>.

### Github Profile Viewer - ReactJS | Fetch API (11/2023 - 11/2023)

- As it's name suggests, GPV is a ReactJS based project which uses Github's official API in order to gather information according to the username entered.
- Project Link : <https://github.com/FahzainAhmad/github-profile-viewer-reactjs>.

### Exam Management System - MERN Stack (02/2024 - 04/2024)

- Created an Exam Management System in MERN Stack, allowing automatic grading, analysis with graphs, security features like blocking and result generation for easier academic assessment.
- Project Link : [https://github.com/FahzainAhmad/mern\\_exam\\_management/tree/main](https://github.com/FahzainAhmad/mern_exam_management/tree/main)

## WORK EXPERIENCE

### MERN Stack Intern ZarWebCoders

01/2023 - 01/2024

Ahmedabad, India

An Ahmedabad-based IT start up specializing in web development application development and digital marketing.

#### Achievements/Tasks

- Integrated TailwindCSS and Bootstrap for a sleek UI.
- I collaborated with a REST API to fetch and manipulate data stored in the database.
