Rajkot, Gujarat

## About Me

A passionate React Developer with JavaScript proficiency, eager to learn and adapt, and committed to delivering exceptional results with problem-solving skills, eager to join a dynamic team and positively impact web development.

**Portfolio :** <https://ektavaru.netlify.app/>

## Projects

### NewsApp

Utilizing React.js and a news API, a dynamic website delivers real-time news updates to users. The website's architecture ensures responsiveness across devices, providing an immersive and up-to-the-minute news consumption experience.

### Shopping Cart

Developed a dynamic shopping cart application using React.js, implementing seamless user interface for browsing and managing products. Integrated functionalities for adding, removing, and updating items in real-time, enhancing the overall shopping experience.

### To-Do App Using react

Utilized React.js's useContext hook to streamline state management in the To-Do application, simplifying communication between components and enhancing code efficiency. This approach ensured a seamless user experience with improved readability and maintainability
