PROFILE

Experienced PHP Developer with 1+ year experience in creating dynamic and user-centric web applications. Proficient in both frontend and backend technologies with a strong foundation in software engineering principles. If you're seeking a versatile software Developer who can consistently deliver solutions, I'm eager to contribute my skills to your development initiatives.

WORK EXPERIENCE

Web Developer

Mindcafe India

Oct 2023 - May 2024

- I have actively contributed to many live projects, significantly enhancing my proficiency in PHP and Python. During this experience, I have successfully created impressive projects and strengthened my skill in team management.
- Developed responsive website using HTML5, CSS3, Bootstrap5, Material UI and Tailwind CSS.
- Developed the Mindcafe website as the sole web developer, including the implementation of payment gateway and backend-frontend communication logic..

Junior Software Engineer

Mindiii Systems pvt Ltd.

Feb 2023 - Sep 2023

- Worked on the Agrinvest web application (CodeIgniter, SQL) as a backend developer..
- Developed the application API, defining endpoints.
- Implemented logic for communication between the frontend and backend.

Software Engineer Intern

Digital India Corporation

Jan 2022 - Jan 2024

- Developed and maintained web applications using Python (Flask/Django) and PHP (CodeIgniter), ensuring adherence to best coding practices and scalability. Developed the application API, defining endpoints.
- Implemented logic for communication between the frontend and backend.
