Profiles

Alpesh Parmar

Seasoned Senior Web Designer with over 5+ years of experience designing and implementing high-quality, user-centric web applications. Expertise in HTML, CSS, JavaScript, and modern front-end frameworks such as Bootstrap, React Native and React Js. Proven track record of leading development teams, optimizing web performance, and delivering projects on time and within budget.

Experience

**Moveoapps** 2021-10 - Current  
Sr, web designer Ahmedabad

Here I started my duty in corona time with all my colleagues by working from home. we still working from home. WFH experience is good for working remotely.

Worked with 8 developers and designers in creating scalable, maintainable websites & mobile applications. Collaborated with UX designers to create user-friendly and responsive interfaces. Created an attractive and user-friendly website using frameworks like bootstrap, tailwind etc. Designed and implemented a component-based architecture using React-Native.

overall work experience is amazing by working from home. And feel thankful to the organization for give me this type of experience.

**Urvam Technologies** 2019-02 - 2021-10  
Lead Web Designer Ahmedabad

I had continued my career with this organization. Work Experience with this Organization is great because I got a confidence like a senior web designer there. I have learn & work in new technologies here like ionic, react-native, marketplace, mautic and ect. Get work confidence that I can resolve any design issues. Also create a design for the front and helped my juniors and seniors with design issues resolve. Effectively managed projects from start to finish with client satisfaction. All Over Work Experience was good and Now I'm moving forward to learn new things and technology to enhance my skills and abilities.

**Axil Solutions** 2018-07 - 2019-02  
Fresher Web Designer Ahmedabad

I was started my career as a fresher web designer. As a fresher I was learned lots of things about web design from this organization. About company is that atmosphere was good for work. Seniors was supportive and helpful. All of my work experience was good.

Education

**Tops Technologies** 2017-09 - 2018-02

**N.V Patel High School** 2007-06 - 2010-08  
Ahmedabad SSC

Projects

Mecklenburg Community Church

https://www.mecklenburg.org/

Mecklenburg Community Church, more commonly referred to as “Meck,” is a church physically located in Charlotte, NC and virtually located through our Online Campus. Meck is and has always been dedicated to serving God and others. Here at Meck, we believe church isn’t about religion, but instead a relationship with Jesus.

Donghua Chain

https://play.google.com/store/apps/details?id=com.donghua.chainiddonghua&hl=en\_IN&gl=US

Donghua Limited, a subsidiary of one of the world’s largest chain manufacturers, has taken its popular Online Chain ID Tool from their website and converted it into a revolutionary free App. The App is designed to help engineers identify the right replacement chain for a piece of equipment, especially given the variety of chains that are available for agricultural, packaging, food processing and material handling machinery which is sometimes difficult to recognise. Using the Chain ID App, Donghua can easily and quickly identify the right replacement chain.
