WORK EXPERIENCE

ReactJS developer
Dataset software
12/2023 - Present

- Utilized **Redux and Material UI** to craft an efficient admin-side module, implementing robust **item inventory** management capabilities including pagination and advanced search features.
- Implementing Jewelry website which includes landing page, product page etc. with **context API**

Frontend Developer
Ringover France
02/2023 - 11/2023   *Remote*

- **Statistics page:** Created an **interactive statistics page** using **React** , **React-Query** , **Recharts.js** , and **react-dnd-beautiful** , enhancing users' ability to monitor daily task management activities with a **20%** improvement in user engagement.
- Engineered a **PDF download functionality** using **HTML2Canvas** and **JSPDF** , facilitating offline accessibility of statistics in PDF format with a **15%** increase in usability.
- **Template Creation:** Optimized template creation by implementing **Cadence template functionality** within **Cadence Support** , reducing development time by **25%** .
- Designed and implemented **dedicated pages** including **company settings** , **user-specific settings** , **license management** , and **add-ons** , boosting insights into cadences and user details by **30% in cadence support tool**
- Enhanced the **companies section** with **filtering** and **search functionalities** , improving user experience. Introduced a **lead import feature** for **Pipedrive** and **Bullhorn CRM** , enabling multi-lead imports based on filter views, streamlining processes by **15%**

EDUCATION

Master of Engineering
Gujarat Technological University
07/2016 - 06/2018   *Ahmedabad*

Bachelor of Engineering
Gujarat Technological University
06/2012 - 06/2016   *Ahmedabad*

SKILLS

HTML · CSS · SCSS · JavaScript · ReactJS · Redux · React-Query · Material-UI · Tailwind-CSS · NextJS · TypeScript · Styled-component · Redux · Redux-toolkit · Unit testing(Jest) · Apollo-Client · Firebase · Responsive Web design · Media query · Express · Nodejs · React-Testing-library · Git · Postman · Mongodb · Bitbucket

PERSONAL PROJECTS

Chat-app (05/2024 - Present) ↗
- Tech Stack: ReactJS, **Express, MongoDB, Zustand, Socket.io,** jsonwebtoken,
- Developed a real-time chat application enabling users to send and receive messages instantly.
- Implemented user registration and authentication using JSON Web Tokens (JWT) and cookie-parser.
- Utilized **Express.js for server-side logic** and MongoDB for database management.
- Integrated **socket.io to establish real-time communication** between users**.**

Mehak Store (02/2022 - 03/2022) ↗
- Tech Stack: ReactJs, React Router V6, Mock Backend, Axios, Razorpay integration
- Fully functional e-commerce app with CRUD operations for wishlist management, cart management, address management, and order management with **Razorpay payment integration**.

Mys-tube(video library) (05/2022 - 06/2022) ↗
- Tech Stack: ReactJS, React Router V6, Mock Backend, Axios
- A platform similar to YouTube with authentication using the JWT token, **CRUD operations for playlist management**, history management, and like/watch later video management, **search video by title and art name.**

Insta-connect (06/2022 - 07/2022) ↗
- Tech Stack: ReactJs, React Router V6, Firebase, Redux Toolkit
- A social media-like platform allowing authenticated users to perform **CRUD operations on their posts, follow/unfollow users,** add/delete comments, and edit user profiles.
- Authentication using **the JWT token**
