SUMMARY

Dynamic and focused on achieving outcomes Dedicated to frontend development using React.js, the software engineer has 3 years of expertise. Having a solid basis in the concepts of software engineering and a track record of meeting customer demands with high-quality, scalable solutions. I am looking for ways to apply my React.js development experience to support creative initiatives and advance commercial goals.

SKILLS

ReactJS, JavaScript, TypeScript, Hook, Tailwind, HTML, CSS, Git, UnitTesting, Linux and Babel

WORK EXPERIENCE

Software Engineer, BestPeers InfoSystem, Indore, India

June 2021 - Feb 2024

- Actively contributed to 70% of the development and maintenance tasks of web applications using React JS.
- Actively participated in 90% of code reviews, ensuring adherence to coding standards and best practices.
- Played a key role in troubleshooting and debugging issues, resulting in a 30% reduction in bug count and ensuring 100% application uptime.
- Strong problem-solving skills and a proactive approach to addressing technical challenges, resolving 95% of issues within agreed-upon timelines.
- Provided mentorship and guidance to junior team members, resulting in 80% improvement in their productivity and code quality.
- Conducted technical interviews for potential candidates, assessing their proficiency in React JS and problem-solving abilities, resulting in a 20% increase in hiring success rate.

PROJECTS

Bhomio App

www.Bhomio.com

Bhomio is a travel app that links tourists from all over the world and is accessible for iOS and Android devices, as well as a website. Bhomio users are able to:

- Create posts related to their travel experiences and engage with other users' posts through commenting and liking.
- Connect with like-minded travelers through personalized profiles and public forums
- Search for posts and explore locations for details, such as hotels, restaurants, and other points of interest.
- Communicate directly with other travelers via chat.
- Create custom itineraries and invite other members to join.

FUDU App:

www.Fudu.com

App & website for foodies to book the table, pick up, and drive through with a social media network for verified & non-verified profiles.

- Implemented reservation systems, allowing users to book tables at restaurants, place pickup orders, and drive-through orders seamlessly.
- Developed profile verification systems to enhance credibility within the social network, distinguishing between verified and non-verified profiles.

Run My business

- The most agile, reliable, and affordable support services for commercial real estate professionals.
