Himmatnagar**

CGPA - 8.13

Class 10th | 2012 - 2013

R.J.T.P School, Bhiloda

Percentage - 70%

WORK EXPERIENCE

Web Designer

HoneyComb Softwares Private Limited

Dec - 2021 - Present

- I've been working on a lot of new things at my current job. I'm deeply involved with HTML5, SCSS, and the creation of responsive designs using Angular and React. Handling Figma for layouting and mobile UI has been a key responsibility, and I've successfully crafted 3 to 4 layouts. Additionally, to enhance performance, I've implemented a color token system in both SCSS and Figma.
- My experience also extends to mobile app development with Ionic. Recently, I've begun working with Shopify and completed a project using this platform. This experience has broadened my skills in e-commerce technology. Alongside these activities, I've been steadily gaining a basic understanding of React, which is proving invaluable in my current role.

Web Designer

Feb - 2020 - Dec - 2021

Pixelit Studios

- I was trained for 6 months under experienced designers where I acquired professional web designing skills. During my tenure, I developed and designed 7 to 8 websites while working with the web and design team. My role primarily involved core HTML, CSS, SCSS, and ensuring responsiveness.
- Throughout this experience, I gained hands-on expertise in creating intuitive user interfaces and optimizing websites for performance. I actively participated in project discussions, applying my skills to deliver high-quality web solutions that met client requirements and adhered to industry standards.

ABILITIES

- Capability and willingness to study new software applications.
- Creativity Thinking
- Quality Oriented
- Patience & Proactivity
