Objective

As a seasoned graphics and web designer with nearly a decade of experience, I am eager to leverage my creative skills and design expertise in a forward-thinking organization. My goal is to transform client requirements into compelling brand identities and innovative design solutions that drive engagement and success.

Career Summary

With 9.7 years of experience in web and graphic design, I am a highly skilled and motivated professional known for delivering innovative and creative design solutions. My expertise spans the entire project lifecycle—from initial concept through production to final delivery—ensuring all work is both effective and timely. I excel at collaborating with diverse teams, including printers, copywriters, photographers, designers, account executives, web developers, and marketing specialists, to achieve exceptional results.

Key Strengths

- Proven ability to develop and execute design projects that exceed client expectations.
- Strong track record of delivering high-quality work within agreed timescales.
- Flexible and adaptable, with a commitment to continuous improvement and learning.

Key Skills

- Proficiency in HTML, CSS, Less, Sass, JavaScript, and jQuery
- Expertise in PSD Design, Adobe XD, and Figma
- Skilled in PSD to HTML conversion using CSS and jQuery
- Experienced in PSD to WordPress integration using various themes (paid, free, or custom)

Managerial Skills

- Team Management
- Technical Leadership
- Project Management
- User-Centric Focus
- Documentation and Communication

Experience

Company Name: Dev Information Technology Limited
Duration: 6 Year 5 Months (Feb 2018 to July 2024)
Roles & Responsibility: Senior UI Developer

- Led and managed a team of UI and UX designers to ensure high-quality design output.
- Fostered a collaborative and innovative team environment, promoting skill development and knowledge sharing.
- Oversaw the design and development of user interfaces for web and mobile applications, ensuring alignment with user experience best practices.
- Collaborated with UX designers to translate wireframes and prototypes into functional UI components.
- Implemented responsive and adaptive design principles to optimize user experiences across various devices and screen sizes.
- Provided technical guidance and mentorship to junior developers and designers, enhancing their skills in UI development technologies.
- Conducted code reviews and ensured adherence to coding standards and best practices.
- Collaborated with project managers and stakeholders to define project scope, timelines, and deliverables.
- Ensured timely delivery of UI components while maintaining high-quality standards.
- Participated in Agile/Scrum ceremonies, providing input on sprint planning and retrospective discussions.
- Conducted usability testing and gathered user feedback to iterate on designs and improve user satisfaction.
- Created and maintained design documentation, style guides, and UI component libraries for consistency across projects.
- Communicated effectively with cross-functional teams, including developers, product managers, and marketing teams, to ensure alignment on design and development goals.
