Career Profile

Accomplished Manual and Automation Tester with 7 years of comprehensive experience in software testing and API validation. Demonstrated expertise in manual testing through a 3-year tenure at Denevolap, where I honed skills in test case design, execution, and defect tracking. Transitioned to a specialized role as an Automation Tester at CBNITS India Pvt Ltd, leveraging 4 years of experience to master automation tools such as Selenium and Appium. Adept at developing and executing automated test scripts to enhance testing efficiency and ensure high-quality software deliverables. Proficient in integrating manual and automated testing approaches to drive robust and reliable software solutions
