Ahmedabad, IN

## SUMMARY

I possess a wide range of skills in systems installation, configuration, upgrading and maintenance. I have 1+ years of experience working across several different platforms, such as Windows, Mac OS and Linux. I am committed to finding innovative solutions to a variety of IT problems, such as security, database management and technical troubleshooting. I can offer your organization exemplary support with network administration, effective project management and increased system performance.

Analytical and systematic Windows & Linux Systems Administrator with 1+ years of experience dedicated to maximizing performance and ensuring a highly-available and secure environment. Highly skilled in coordinating with internal teams to effectively execute projects and deliver compelling value to clients.

## Career Objective:

- To continuously develop and utilize my skills symbiotically for the benefit of the organization and prove myself to be an asset for the organization. I always look for an opportunity within the organization, where I can expand and execute my capabilities. Willing to learn, always having a positive attitude, Confident and Ambitious.
