Summary

Motivated Network Engineer with foundational knowledge in networking through CCNA. Strong understanding of network protocols, routing, switching, and security. Demonstrates problem-solving abilities, effective communication, and adaptability.

Technical Skills

- **Network Design:** LAN/WAN Connectivity, VLAN Configuration and Routing
- **Routing and Switching:** OSPF, BGP, IGRP, STP, RSTP, VTP, NAT, DHCP, DNS
- **Network Security:** VPN, Firewalls
- **Network Concepts**: OSI Model, Subnetting
- **Additional Skills:** TCP/IP, DTP, Network Automation and Scripting , Basics of Linux, Mysql , Microsoft Office 365 , Active Directory

Internships and Projects

CCNA Intern - Network Rhinos (2 months)
Configured and managed network systems and troubleshot network issues

Project: SOHO Network Design and Implementation
Designed a small office network with internet access, wireless connectivity, file sharing, VoIP phones, VPN, and backup

Education

B.Tech in Computer Science and Engineering
Bharath Institute of Higher Education and Research, Chennai, Tamil Nadu
Score: 81% | Aug 2020 - May 2024

Achievements

- Awarded Best Project for "SOHO Network Design and Implementation"
- Commended for network troubleshooting and configuration skills during CCNA internship

Hobbies

- Listening to music
- Reading books
- Travelling

Soft Skills

- Good communication
- Self-motivated
- Teamwork
- Adaptability
- Problem-solving
