SUMMARY

Android Developer with 2 years of experience in crafting engaging mobile apps. Comfortable working with Java and Dart, I'm dedicated to creating smooth and responsive user experiences while tackling challenges and learning new techniques along the way.

WORK EXPERIENCE

Tri-Force Consulting Pvt Ltd.

Sep-2022 (Present)

Android Developer

- Developed Android applications using Java and XML.
- Implemented user interfaces, activities, and services for mobile devices.
- Integrated third-party APIs into existing applications.
- Created custom UI and UX designs for Android applications.
- Resolved bugs reported by users during testing phase.
- Deployed updates regularly after thorough testing of new features or bug fixes.
- Developed and maintained CRM applications, enhancing features for lead management and capturing.
- Performed regular maintenance checks on live apps deployed in production environment.
- Integrated various APIs and web services, including Salesforce for streamlined customer relationship management.
- Implemented OCR for document scanning and data extraction, improving efficiency in lead handling.

PROJECTS

- **CRM App:** Designing and implementing a CRM application to streamline client management and business operations, using Java and Kotlin for scalable and efficient solutions.
- **EzLeads:** Developing EzLeads to enhance lead tracking and sales processes, with a focus on integrating APIs and optimizing app performance.
