PROFILE

I aspire to have a successful career in an innovative and challenging IT-Field and computer environment, and I crave for organization where I can prove my current skills and master in new skills.

EXPERIENCE

N R CREW | Ahmedabad

FEB 2023 - Present

Collaborated with the N R crew's development team to discuss UI ideas and application requirements. Worked on performance optimization and feature development using HTML, CSS, Bootstrap, JavaScript, React.js, Tailwind CSS, and Ant Design ensuring proper implementation and functionality.

Serenetic Software Pvt Ltd | Ahmedabad

FEB 2022 - JAN 2023

I completed a a web design internship at Serenetic Software Pvt. Ltd., where I gained hands-on experience in creating responsive, user-friendly websites. I contributed to several projects, enhancing my skills in HTML, CSS, JavaScript, and design tools, while collaborating with a professional team.

Divine Institute

JAN 2021 - JAN 2022

I Had Completed Training for Web Designing at Divine Institute.

PROJECTS

KB-ALLOYS

Description:

- Spearheaded the development of 'KB Alloys,' a dynamic web application tailored to streamline various facets of company operations. This comprehensive solution effectively manages intricate stock inventories, intricate order processing, diverse product catalogs, and intricate customer databases.
- Engineered robust functionalities within the platform to facilitate seamless order management, including features for order dispatching and cancellation. Implemented automated customer communication protocols, enabling timely notifications regarding order dispatches, enhancing customer satisfaction, and reducing manual intervention.
- Designed and integrated a sophisticated reporting system, empowering administrators with valuable insights through daily reports delivered directly to their email. This feature-rich reporting mechanism offers a detailed overview of key metrics, enabling data-driven decision-making and proactive management of resources.
- Leveraged cutting-edge technologies and agile development methodologies to ensure the scalability, reliability, and security of the 'KB Alloys' platform. Collaborated closely with cross-functional teams to gather requirements, iterate on designs, and deliver a solution that aligns closely with organizational objectives and user needs.

Technology Stack:

React JS, Tailwind CSS, Typescript, HTML
