## EDUCATION

**Silver Oak University - (9.50 CGPA)**     Ahmedabad, Gujarat
*B.Tech in Information Technology*     *March 2021 – Present*

**Sahajanand Vidyalaya – (Class XII With 77%)**     Ahmedabad, Gujarat
*Higher Secondary School*     *March 2019 – Feb. 2021*

## EXPERIENCE

**Full Stack Developer Internship**     March 2023 – July 2023
*The Special Character*     *Ahmedabad, Gujarat*

- As a passionate learner, I engaged in an immersive internship experience where I honed my skills in HTML, CSS, JavaScript, React, Node.js, Express, and Tailwind CSS.
- Through hands-on projects and collaboration, I gained practical expertise in building responsive web applications and implementing modern design principles.
- I also developed strong problem-solving abilities and learned how to manage my time effectively to meet project deadlines.

## PROJECTS

**MERN Authentication Website** | *React , JavaScript , NodeJs , ExpressJs, MongoDB*     Aug. 2023 – Sep. 2023

- Developed a secure authentication website using the MERN stack: MongoDB, Express.js, React, and Node.js.
- Set up and managed user authentication and authorization using JWT (JSON Web Tokens).Integrated MongoDB for database management to securely store user credentials and information.
- Built a RESTful API with Express.js and Node.js to handle user registration, login, and authentication processes.

**Job Seeking Application** | *React , JavaScript , NodeJs , ExpressJs, MongoDB*     Dec. 2023 – Jan. 2024

- Developed a comprehensive Job Seeking Application from concept to deployment using HTML, CSS, React.js, and Tailwind CSS for the frontend, and Express.js, Node.js, and MongoDB for the backend.
- Created a dynamic frontend for user interaction, a robust backend for data management, and an intuitive dashboard for job search management.
- Designed and implemented a scalable solution that provides job seekers with a user-friendly experience and enables smooth employer engagement.

**Hospital Management System** | *React , JavaScript , NodeJs , ExpressJs, MongoDB*     March 2024 – April 2024

- I developed a comprehensive Hospital Management System utilizing a full-stack approach, employing HTML, CSS, React.js, Tailwind CSS for the frontend, and Express.js, Node.js, and MongoDB for the backend.
- Utilized cutting-edge technologies and a modular design approach to deliver a scalable and efficient solution for modern healthcare facilities.
- Ensured the system met the complex needs of healthcare providers, enhancing operational efficiency and user experience.

## TECHNICAL SKILLS

**Languages**: C/C++(essential), HTML, CSS, JavaScript
**Frameworks and Libraries**: React, Node.js, Express.js, Bootstrap, Tailwind CSS, Material-UI
**Databases**: MongoDB, SQL
**Developer Tools**: Git, Visual Studio Code (VS Code)
**OS**: Windows, macOS

## ACHIEVEMENTS

**I have Completed an intensive C++ programming training at Samayak IT Solutions Pvt. Ltd. with a Grade A+.**
