WORK EXPERIENCE

Appscrip

Nov. 2021 – Jun. 2024

SDE-II iOS Developer

Chandigarh, PB

- Played a key role in the development and integration of new features while ensuring the stability and bug-free performance of applications resulting in 30% user retention.
- Implemented test-driven development (TDD), reducing post-release bugs by 25% and ensuring a more robust, reliable codebase through thorough pre-deployment testing.
- Built CI/CD pipelines with Microsoft Azure for iOS deployments, reducing release cycles by 30% and lowering user and client-reported issues by 15%.
- Developed and implemented a high-performance, MVVM-based SDK replicating Google Calendar and Event Viewer for use across company projects.
 - Resulted in securing a high paying multi-chain salon business out of the U.S.A. with 8k+ members.
- Mentored 3 junior iOS developers, guiding them in best coding practices and advanced iOS concepts, leading to their role in high-priority projects within a year
- Refactored legacy code, reducing app load times by 70% and significantly decreasing memory consumption across user flows in service provider apps

Mansa Infotech

Mar. 2019 – Oct. 2021

SDE-I iOS Developer

Mohali, PB

- Understanding fundamentals of Swift and Objective-C with best practices in iOS development, project building, app development flow works and App Store Deployment.
- Integrated key features like in-app purchases, Audio/Video calls, Persistent Storage using Swift and Objective-C enhancing functionality and user engagement.
- Four applications developed from scratch using Swift with MVVM architecture and programmatic UI as a solo developer with a combined user base of 15k+ users.
- Bug fixing and code cleanup of the projects under MVC and MVVM architectures.

EDUCATION

Rajasthan Technical University, Kota

2014 - 2018

Bachelor of Technology in Computer Science and engineering

Bikaner, RJ

- **CGPA:** 7

SKILLS & Tools

- **Skills:** Swift, SwiftUI, Combine, Test Driven Development (TDD), RESTful APIs, GraphQL, CoreData/Realm, Objective-C, Git & GitHub/BitBucket, Firebase, WebSockets/MQTT, Google/Mapbox Maps, WebRTC, In-app purchases/Payment Gateway
- **Tools:** Xcode, Microsoft Azure(CI/CD), Postman, Mapbox

CERTIFICATIONS & INTERESTS

- **Certifications:** iOS Development Bootcamp (Udemy)
- **Interests:** Weightlifting; Drawing, Anime
