About Me

I am a diligent and detail-oriented Quality Assurance professional with 1.5 years of in-hand experience passion for ensuring product excellence. With a solid background in software testing methodologies and a keen eye for identifying defects, I am committed to delivering high-quality products that meet and exceed customer expectations. My proactive approach to problem-solving, coupled with effective communication skills, enables me to collaborate seamlessly with cross-functional teams to achieve project goals efficiently. Dedicated to continuous learning and improvement, I thrive in dynamic environments where innovation and quality are paramount.
