PROFESSIONAL SUMMARY

- With over 3.6 years of software QA experience, I specialize in manual testing for both web and mobile applications within Agile methodologies.
- Demonstrated 1 year of hands-on experience in automation, utilizing tools such as Selenium and eclipse.
- My expertise spans project-based and product-based testing, encompassing Android and iOS applications.
- I excel in understanding, analyzing, and streamlining test requirements, ensuring alignment with project objectives.
- Proficient in various testing types including functional, API, regression, integration, smoke, and acceptance testing.
- I meticulously create test scenarios and test cases tailored to project needs.
- I possess adept skills in bug tracking and reporting utilizing tools such as Jira, Zoho and Redmine, while actively participating in Agile ceremonies like daily stand-ups, iteration planning, and Scrum meetings.
- Additionally, I bring extensive experience in cross-browser compatibility testing, coupled with a deep understanding of SDLC, STLC, and Bug Life Cycle.
- As a strong team player, I thrive in collaborative environments and exhibit the ability to handle multiple responsibilities efficiently.
- With a penchant for quick learning and self-discipline, I am poised to contribute effectively to any testing team.
- Experienced in performance testing and report generation using the JMeter tool, proficiently analyzing system performance metrics for comprehensive insights

PROFESSIONAL EXPERIENCE

Build Formula by VSHWAN

January 2024 - Present

QA Engineer (QA Manual + Automation Tester)

- Verified test requirements, analyzed them thoroughly, and derived relevant test scenarios for a Fintech domain web application project.
- Documented comprehensive test cases and collected necessary test data for functional testing purposes.
- Executed test cases meticulously and reported any discovered defects promptly, ensuring thorough tracking and resolution.
- Conducted retesting and regression testing as needed, selecting appropriate test cases to ensure robust application performance.
- Demonstrated proficiency in writing test cases and executing them efficiently to validate system functionality.
- Proficient in writing automation scripts using Selenium Java to automate web applications, contributing significantly to enhancing efficiency and reliability within the testing process.

Quality Analyst (Manual Tester)

- Provided recommendations to enhance the development process of ERP domain-based software, focusing on optimizing user role management with distinct rights allocation, refining booking and ticketing functionalities, streamlining LOI generation processes, and enhancing Email & SMS services integration.
- Prepare and Execute comprehensive Test Case as well as Reporting Defect on various projects like Tourism Industry, Library management, Asset management, GIS based layers and ERP projects.
- Participating in all aspects of product testing, including test plan development, execution and delivery of well-tested solutions with short time to release.
- Executed test cases and reported defects across various application environments including Windows, AngularJS, ReactJS, NodeJS, Android, and iOS platforms, ensuring consistent quality across different technologies.
- Executing Test Case and Reporting Defects.
- Tracked defects meticulously, selecting appropriate test cases for retesting and regression testing to ensure software stability and reliability throughout the development lifecycle.
- Knowledge of Redmine-defect tracking tool and test case management tool.

EDUCATION

MCA(Master Of Computer Application): GTU, Ahmedabad, 2021
CGPA - 8.48

BscIT(Bachelor of Science in Information Technology): MKBU, Bhavnagar,2019
Percentage - 59.97

12th Science: GSEB, 2016
Percentage - 53.07

TECHNICAL SKILL

- **UI Automation:** Selenium, Java
- **Operating System:** Windows, Linux
- **Language:** JAVA
- **Database:** SQL
- **Tool & Application:** Jira, Zoho, Redmine, MS-Office

SOFT SKILL

- Troubleshooting and Strategic Decision-making.
- Clear Communication and Thoroughness.
- Versatility and Personal Drive
