Landmark Techedge Pvt Ltd.

July 2022-December 2022

#### Responsibilities

- Assisted in developing web applications and features using ASP.NET and C#.
- Contributed to the full Software Development Life Cycle (SDLC), from gathering requirements to deployment and maintenance.
- Worked closely with senior engineers to develop UI components and business logic for web applications.
- Participated in code reviews, ensuring best practices in coding standards and design patterns.

# PROJECTS

---

## **Project-Matrimonial(Ongoing)**

### **Role-Team Member**

Description: Developed a matrimonial website for managing user profiles, matrimonial matches, and related data. The project provided features for both users and administrators to manage their activities. Designed and implemented the Admin Module using ASP.NET MVC, which enabled administrators to manage users, review matrimonial profiles, and handle data securely. Developed CRUD operations for managing user profiles, including search filters and detailed user activity tracking. Developed and added the Subscription Management feature, which lets admins handle user subscriptions, view and manage different subscription plans, and process renewals easily. Worked with SQL Server for data storage, optimization, and complex queries to manage large datasets of user profiles.

## **Project-ERP(Order to Cash)**

### **Role-Team Member**

Description: Develop a tailored ERP solution for large-scale manufacturers, dealers, traders, and service industries to optimize their operations and enhance productivity. Streamline supply chain management, inventory operations, and purchase tracking, ensuring accurate data management through dedicated databases for each client. Facilitates the creation and management of quotations, improving sales processes and customer interactions. Implements secure access controls based on user roles, enhancing data security and operational efficiency. Provides insights into sales trends, inventory levels, and production performance to support informed decision-making. Oversee project development, coordinate cross-functional teams, manage timelines and budgets, and ensure stakeholder alignment throughout the project lifecycle.

## **Project-Biz Plus CRM(Web)**

### **Role-Team Member**

Description: Biz Plus CRM is a comprehensive software solution designed to enhance customer relationship management through a centralized platform. Streamlines lead, contact, sales, and customer interaction management. Facilitates efficient tracking and nurturing of client relationships. Coordinates between trainers and students for effective course assignment and management. Enables trainers to manage student performance records, ensuring accountability and improvement. Admin module provides insights through report generation and monitors adherence to institutional policies. This project enhances operational efficiency and improves communication between staff and students, ultimately fostering better educational outcomes.

## **Project-CRM(IMS-Standalone)**

### **Role-Team Member**

Description: To streamline operations within educational institutes through a user-friendly standalone application.

The system is divided into four main modules: Counselor Module: Manages student inquiries and enrollments. Trainer Coordinator Module: Oversees the assignment of trainers to courses. Trainer Module: Allows trainers to manage their schedules and course materials. Admin Module: Enables comprehensive reporting and policy compliance.

Facilitates effective scheduling of trainers for various courses, ensuring optimal resource utilization. Enhances communication between trainers and students, improving course management and feedback processes. Trainers can access and update student performance records, fostering a better learning environment. Admins can generate detailed reports to track the institute's performance and ensure adherence to institutional standards. This project enhances operational efficiency and improves communication between staff and students, ultimately fostering better educational outcomes.
