## SKILLS

languages : C, C++, JAVA, MYSQL

Tech Stack : ReactJs, NodeJs, ExpressJS, MongoDB, HTML, CSS, Javascript

---

## EDUCATION

CSPIT - CHARUSAT

Passout - 2025

B.TECH (INFORMATION TECHNOLOGY)

CGPA (Till 6th Sem : 8.83)

---

## WORK EXPERIENCE

### Miracle Technolabs

#### Web Developer Intern

May 2023

During my internship in web development, I had the opportunity to work with HTML, CSS, Bootstrap, and JavaScript. This experience allowed me to gain practical skills in building responsive and visually appealing websites.

### CodeAlpha

#### FrontEnd Developer Intern

May 2024

During my internship as a FrontEnd Developer, I had the opportunity to work extensively with React.js, HTML, CSS and JavaScript. I collaborated with cross-functional teams to integrate features and ensure a seamless user experience

---

## PROJECTS

### Scholarship Managment System ( ReactJs + ExpressJs + MongoDB)

April 2024

This project facilitates efficient handling of scholarship applications, reviews, and approvals with features like secure user authentication, role-based access control, real-time updates, and detailed reporting.

### Contact Managment System ( ReactJS )

March 2024

Developed a Contact Management System in React.js, featuring contact import/export, merge and delete functionalities, and a search tool. The system provides an intuitive user interface for efficient organization and management of personal and business contacts.

### Password Generator ( ReactJs )

Nov 2023

The Password Generator React.js Project is a web application designed to generate strong and secure passwords for users. It allows users to specify the length of the password and select the types of characters to include (uppercase letters, lowercase letters, numbers, and special symbols).

### RentYourPlace ( PHP + HTML + CSS + JS + Bootstrap)

April 2023

The Rent Your Place Website is a platform designed to facilitate the rental process for houses, apartments, or any type of residential property. It serves as a marketplace where landlords can list their properties for rent and tenants can search for suitable accommodations based on their preferences and requirements.

### Medical Store Managment System ( JAVA + Apache NetBeans )

Nov 2022

The Medical Store Management System is a software application designed to streamline and automate the processes involved in managing a medical store or pharmacy. It provides a digital platform for efficiently handling various tasks related to inventory management, sales, purchases, customer records, and staff management.
