Career Objective

To join a progressive organization where I can find immense learning opportunities, growth prospects and make maximum use of my strengths, technical knowledge and ability to work well in teams.

Summary

- Having around 6.5+ years of testing experience in manual and automation testing from November 2013 to till now.
- Good knowledge of implementing automation frameworks using Selenium WebDriver.
- Good knowledge of TestNG annotations, Grouping and parallel execution.
- Execute test scripts on Firefox, Google chrome and IE browsers.
- Good knowledge of STLC and SDLC.
- Perform regression testing, retesting, smoke and sanity testing.
- Having good knowledge in Jmeter tool for performance and load testing.
- Having good knowledge of mobile application testing in Android and iOS.
- Proficient in writing and executing test cases.
- Hands on experience in working on critical projects and delivering the product on time.
- Basic knowledge of SQL queries.

Roles And Responsibilities

- Writing and executing test cases.
- Involve in bug reporting generation.
- Perform the smoke and regression testing and report the status to Team leader/Project Manager.
- Prepare automation test suite with TestNG framework and execute them to assure quality.
- Raise bugs into the bug reporting tool.
- Also guide and provide training to junior quality assurance engineers.
