

TUSHAR PATEL – IT Infrastructure Head, SAP Project Leader

Mobile: 07567696202 Tel. (Res.): 079 - 26732217

E-Mail: pateltushar75@gmail.com

<https://www.linkedin.com/in/tushar-patel-89134915/>

JOB OBJECTIVE

Seeking Senior Level Assignments in Project Management / Infrastructure Management with an organization of repute.

Profile Summary

Over 25 Years' experience and 16 Years System Administration and Maintenance of various systems on AIX 5.3 → 7.2, HP UX 11i v3 (B.11.31) in Data Center with HA Cluster environment and Windows (Infrastructure Support), VMWare environment, Network Management, Hardware Installation and Technical Support, SAP Implementation and DR site Buildup.

Comprehensive understanding of project management life cycle including designing & execution of Project Framework, Scope Management and Time & Cost Management

Distinguished competence in strategic management of technical matters with distinction of launching and driving new IT initiatives and re-designing IT infrastructure.

Ability to oversee multiple complex projects concurrently with knowledge and experience of diverse technologies. Expertise in ramping up projects with competent cross-functional skills and on time execution.

Strong communicator with the ability to ensure execution of the time-bound deliverables

AREAS OF EXPERTISE

Project Management

- ❖ Monitoring / tracking projects with respect to budgeted cost, demand forecasts, time over-runs to ensure timely execution of projects.
- ❖ Managing the design and deployment of highly complex infrastructure projects including all aspects of environmental, hardware and software components.
- ❖ Defining and implementing all infrastructure requirements. Managing all internal and outsourced projects within approved budgets.
- ❖ Managing overall operations for executing projects involving scoping, design & architecture & sourcing.
- ❖ Addressing all the important issues & defining best practices for project support and documentation.

Systems Administration

- ❖ Supervising the provisioning of new servers, installation and maintenance.
- ❖ Leading new deployments from infrastructure perspective by coordinating with vendors and internal resources.
- ❖ Performing systems backups and restore procedures; modifying basic scripts to resolve performance problems.
- ❖ Providing extensive support on anti-virus management process on servers and clients.
- ❖ Checking for exception report on the daily operational activities to ensure that all services and actions are carried out properly and authorized to minimize faults.
- ❖ Managing the new disaster recovery of IBM Server p5 Model 595 including its expansion unit administration on AIX OS; checking and monitoring p5 Model 595 Server & IBM DS 8300 Storage Events from Service Focal Point (SFP) through HMC.
- ❖ Supervising the installation of Service Pack / Security Patch in Old DR + Location Servers with proper authorization and process (Online Call Logging & OCR).
- ❖ Undertaking the restoration of Production Servers Backup in Old DR Server and sending it back to the Media.
- ❖ Preparing Capacity Monitoring Report for Old DR Servers and sending for Online Update Database.

Technical Support

- ❖ Providing extensive technical support in order to ensure a high degree of Customer Satisfaction through SLA & Process Compliance.
- ❖ Logging H/W Calls in IBM Smart Center and following up for the parts up to the level of closing the complaint.
- ❖ Checking the Event Log on all Servers; handling Disk Cleanup/De-fragmentation of old DR + Location Servers.
- ❖ Monitoring SAP R3 Production Archive Logs and moving from remote site to local DR Destination; applying the Archive Logs to DRS Servers.
- ❖ Performing advanced troubleshooting and resolution of desktop, server & application issues.
- ❖ Troubleshooting problems pertaining to Performance Tuning, Network Administration and System Bugs.

- ❖ Addressing queries regarding the Information System / Software & extending onsite support to the clients including maintenance of hardware / software.

People Management

- ❖ Managing team functions viz. manpower planning, recruitment, performance appraisal, etc.
- ❖ Leading, mentoring & monitoring the performance of team members to ensure higher productivity & efficiency in process operations and meeting of individual & group targets.

TECHNICAL SKILLS

Hardware Platforms	: INTEL Pentium base Products, Intel Base Servers, IBM p-Series p595, HMC- Hardware Management, Console 7315-CR3 (Rack Model), DS 8300 External Storage With Expansion, HP EVA6400 Series Storage, Desktops, Laptops
Operation Systems	: IBM AIX 5.3, HP UX 11.31, MS Windows 2003 Enter Edition, MS Windows 2000 Advanced Server, MS Windows NT 4.0, Microsoft Windows 2K Prof / XP / 98 / 95
Networking	: LAN/WAN using L3 & L2 Ethernet Switches, Hubs, Routers, UTP CAT5, CAT6, VSAT, Modems
Networking Protocols	: TCP/IP, NetBEUI, IPX/SPX, NIM, NFS, implementation of services like DHCP, WINS, DNS, RAS, Routers, etc
Messaging/Mailing	: Lotus Domino Server & Lotus Notes Client, MS-Outlook, Outlook Express
Office Automation	: Lotus SmartSuite 9.6 Millennium, Microsoft Office 2013/2000/XP
Other Software	: Citrix MetaFrame XP and Terminal Server - Trend Micro OfficeScan Enterprise 6.5, Server Protect 5.58, ScanMail for Lotus Domino Mail Server
Hardware	: IBM NetFinity and xSeries 255, 235, 250 & 255 Servers
IT Security	: OS Hardening, IBM GSD311 Security for WIN2K, Lotus Domino Mail Server

CERTIFICATIONS

- ✓ OCI Certified Cloud Operations Associate (Oracle Testing ID: OC2018409)
- ✓ OCI Certified Architect Professional (Oracle Testing ID: OC2018409)
- ✓ OCI Certified Architect Associate (Oracle Testing ID: OC2018409)
- ✓ OCI Certified Foundation 2020 Associate (Oracle Testing ID: OC2018409)
- ✓ Google Associate Cloud Engineer Online course completed from Udemy
- ✓ Scrum Fundamentals Certified from Scrum Study (Cert. ID: 791823)
- ✓ Utilizing Big Data course completed from The International Information System Security Certification Consortium, or (ISC)²
- ✓ Appeared in IBM System p Administrator Exam Series 223 (Exam ID: SR3216155).
- ✓ Appeared in IBM p5 and pSeries Enterprise Technical Support AIX 5L V5.3 Exam Series 180 (Exam ID: SR3216155).
- ✓ Appeared in HP- UX 11iv3 System Administration Exam Series HP – P20 (Exam ID: SR3216155).
- ✓ Microsoft Certified System Engineer (MCSE).
- ✓ Cisco Certified Network Associate (CCNA) (Exam ID: CSC010235370).
- ✓ Microsoft Certified Professional (070-270) (Exam ID: SR2783578).

CAREER RECORD

Since October'16 onwards with VarniTech Solutions Pvt. Ltd.

As an IT Infrastructure Head cum SAP Project Leader

- SAP Support, DB Migration as a Brownfield Project, IT Infra Support New Implementation of SAP as a Greenfield Project
- Successfully completed
 - SAP + Infra Project of Precision Bearing (SAP EHP7) ,
 - Infocost Solution – Mumbai (SAP S4H 1610 Technical, Basis Support),
 - Sarjen System - Ahmedabad (SAP S4H 1610 Greenfield),
 - Siyaram Textile Mills - Mumbai (GST Implementation),
 - VBSof India Pvt. Ltd. (Ahmedabad), Project # IUT (Central Government Delhi) - SAP Enterprise Portal (EP) Module Implementation backend MS SQL Database
 - Manpasand Beverages Ltd. - Vadodara (SAP S4H 1709 Greenfield Project # Technical + Functional)
 - Gujarat Gas Ltd. – Gandhinagar (OSDB Migration, IBM AIX Post Go-Live Support)
