- in web development, i work in wordpress. in between i done with wordpress course.
- Also i have knowledge of HTML/CSS/PHP .

## PERSONAL PROJECTS

### Smart Irrigation using IOT

- As water supply is becoming scarce in today's world there is an urgency of adopting smart ways of irrigation. The project describes how irrigation can be handled smartly using IOT. This project aims at saving time and avoiding problems like constant vigilance.
- It also helps in conserving water by automatically providing water to the plants/field depending on the water requirements. This system can also prove to be helpful in agriculture, parks and lawns. The objective of this system is to detect the moisture content of the soil and depending on it sprinkle water .
- This entire information will be sent to the user's mobile phone
